

Credit Card Setup Application

This document contains the information needed to set up your Merchant Account. For a Merchant Service Provider, feel free to choose your own bank, or choose one of our preferred providers (refer to our Preferred Merchant Service Providers sheet). If your Merchant Services Provider has any compatibility questions, please have them contact our Merchant Service Department at 443-561-1200 or MSD@ue83.com.

Once your Merchant Account has been acquired, please fill out these forms **completely** (print or type legibly) and fax it back to Unitec at 410-579-6830 as soon as possible to ensure that your modem ships with your unit. If this information is not received before the unit's scheduled ship date, your distributor will be responsible for the shipping charges incurred to ship your modem.

Please keep in mind that after the application has been submitted, you will receive a screen shot (via fax or email) containing the Merchant ID/Terminal ID# provided by the processor which we have entered in our data base. Please confirm what we have in our system is accurate. Along with the screen shot, a confirmation form will be attached. Please complete and fax or email it back. The modem will not ship and the download will not be performed until the Confirmation of Correct Banking form has been submitted.

Please mark which situation applies to your site and note which sections you need to complete:

- New set-up (modem needed) – complete sections 1, 2, 3 (a-e), 5, and 6 (internet) or 7 (dial-up)
- Change of processor – complete sections 1, 2, 3 (a & b), 4, 5, and 6 (internet) or 7 (dial-up)
- Change of car wash ownership – complete sections 1, 2, 3 (a & b), 4, 5, and 6 (internet) or 7 (dial-up)
- Re-download for replacement modem – complete sections 1 and 4 (*please note – this is not an order form for replacement or remanufactured modems*)
- Canadian customers – complete sections 1, 2, 3 (a-e), 5 and **page 6**

1. SITE CONTACT INFORMATION

Car Wash Name: _____
Company Name (if different from car wash name): _____
Owner's Name: _____
Authorized Customer Representative Name: _____
Location Street Address: _____
City: _____ State: _____ Zip: _____
Site Phone #: _____
Modem Phone #: _____ "9" required to dial out? Yes No
Email Address: _____

2. DISTRIBUTOR CONTACT INFORMATION

Distributorship Company Name: _____
Contact Person: _____
Street Address: _____
City: _____ State: _____ Zip: _____
Phone #: _____
Email Address: _____

3. UNIT INFORMATION

There is an additional \$60 charge per terminal for this service. Please supply your credit card information below for the \$60 charge.

Car Wash Name: _____

Card Type: MasterCard Visa

Card Number: _____

Expiration Date: _____

Authorized Signature: _____

Printed Name: _____

5. REQUEST FOR UNITEC TO PROGRAM MODEM

This is to advise Unitec that our Company has acquired the above Unitec Product containing a modem intended to be used to facilitate the electronic deposit of funds received from our customers into the Company merchant account described below at the following institution:

Full Name of Bank/Financial Institution where funds are being dispersed: _____

Street Address: _____

City: _____ State: _____ Zip Code: _____

Merchant ID/Terminal ID # _____

The Company recognizes that the information above must be accurate or the deposits may not actually be made, they may be made into an incorrect account, and/or there may be other adverse consequences. The Company further understands that Unitec cannot confirm when the Unitec Product is first used by us, or whether deposits are being properly made as intended.

Therefore, the Company agrees that it shall confirm with the above institution that the Product is properly directing deposits into the correct account by running a test transaction prior to the first use of the Product, and it shall immediately cease using the Product and immediately notify Unitec by fax at the above number if funds are not being correctly deposited as expected. It shall not use the Product at any time thereafter, until the problem is resolved and proper verification of deposits can be made.

The Company agrees that it shall assume and it shall be solely responsible for any losses it sustains at any time due to the inaccuracy of any of the above banking information, even if they are the result of Unitec's incorrect input of information into the modem. Should the Company pursue a claim against Unitec to recover damages for

Unitec Electronics

7125 Troy Hill Drive • Elkridge, MD 21075 • 443-561-1200 • 410-579-6830 Fax

losses for which it has assumed liability as set forth above, it shall hold harmless and indemnify Unitec from any and all costs and expenses Unitec shall reasonably incur in defending against an action brought against Unitec.

6. INTERNET PROCESSORS OPTIONS

MERCURY PAYMENT SYSTEMS

- Internet service through a broadband connection (DSL, Cable) must be available at the site. This will typically require establishing an Internet Service account through a local telecommunications company or other Internet Service Provider (ISP). The installation of this service must include a network router that uses DHCP addressing.
- The site owner must establish an account with Mercury Payment Systems (www.mercurypay.com) for transaction processing. To set up an account, contact Mercury at 1-800-846-4472.
- Once that account is established, Mercury will provide an acknowledgement letter with Merchant and Bank ID numbers. The Unitec distributor is responsible for entering the Merchant information into the equipment. For assistance, call Unitec's Technical Support Department.
- Note: for Wash Select II installations converting from a dial-up to Internet processing, the credit device currently installed in the Wash Select II will need to be reprogrammed. This reprogramming can be performed remotely, over the phone line connection (after your distributor installs the credit IP upgrade). The equipment distributor should contact Unitec's Technical Support Department to have this service completed in advance of the installation.

Merchant ID: _____

Bank ID: _____

PAYMENTECH NETCONNECT *(for Wash Select II systems only)*

- Internet service through a broadband connection (DSL, Cable) must be available at the site. This will typically require establishing an Internet Service account through a local telecommunications company or other Internet Service Provider (ISP). The installation of this service must include a network router that uses DHCP addressing.
- Note: for Wash Select II installations converting from a dial-up to Internet processing, the reprogramming can only be performed at Unitec (after your distributor installs the credit IP upgrade).

IMPORTANT!

These instructions must be carefully followed to complete a successful installation and proper operation. Variance from these instructions will result in a delay of credit card processing. The modem will not be sent out with any Wash Select II/POS or Portal TI units until Unitec receives the merchant information.

Unitec, Inc. is not responsible for any loss of transaction data and specifically disclaims any liability for actual or consequential damages, limiting liability to repair or replacement as set forth in Unitec, Inc.'s limited warranty.
