

Wash Select II™ POS for Chevron

- Accepts all cards taken at the gas dispensers and in the C-store, except PIN debit cards
- Automatically sells washes and upgrades
- Offers multiple 'point-of-sale' locations
- Allows multi-bay and multi-console operations

The Wash Select II™ POS is a premium carwash entrance and management system for petroleum/C-store operators that interfaces with cash registers and gas dispensers to sell carwashes. The Chevron option provides the capability to process card transactions through the Wayne Nucleus® POS System. Customers will be able to use non-PIN debit cards that are used at the gas dispensers and inside the C-store. The factory option includes the card reader, receipt printer and the voice and speech options.

**Compatible with
the Wayne Nucleus®
POS system only**
